

VICENTE GARCÍA ANDRADE

Madrid, Spain | [GitHub](#) | [linkedin](#) | vicengandrade@gmail.com | +34 647498834

PROFILE

Backend/systems engineer(Go, C/C++, Python) with technical training at 42 and business training at ESCP. 16 years of building software. Started with HTML at 8, robotics at 12, mobile apps at 16. Currently focused on low-level development, REST APIs, and building a menu design/data platform for restaurants(allergens, menu digitalization).

SKILLS

- Languages: Go, C/C++, Python, C#
- Backend & Infra: REST APIs, JSON, Docker, Linux, Git, JWT/OAuth2, microservices patterns, PostgreSQL
- Security: JWT/OAuth2, RS256, bcrypt, 2FA, PCAP analysis (Wireshark/tcpdump)

SOFT SKILLS

- Technical autonomy: sole lead at SayFly! after the CTO departure.
- Self-taught: 16 years switching stacks, most recently Django → C/C++ → Go
- Non-technical communication: clients and teammates at Finza/Apto, ESCP pitching.
- Product focus: validate before scaling (Finza, Apto)

EXPERIENCE

Apto | Founder | Go, HTML→PDF | Jun 2026 - Today

Menu digitalization for restaurantes(allergens, menu design)

- Building v1: layout and PDF export service.

Finza | Founder | Go, Railway, Cloudflare | Jan 2026 - May 2026

Portfolio management services for retail investors.

- Designed and validated a “wallet of wallets” to consolidate scattered investments: landing page + auth service as a
- After 50 customer interviews, shut down the project, high trust barrier with banking data, unsolvable short-term.

SayFly! | Full Stack | *Django, AWS, Cloudflare* | Jan 2022 - Jun 2022

Last-mile logistics for tourists.

- Took over all technical work after CTO departure. Optimized login/purchase flow, improving conversion.
- Project closed due to low product-market fit.

RELEVANT PROJECTS

Janus *Go, JWT RS256, OAuth2, Docker 2026*

- Designed and secured a full auth service: OAuth2 (Google), RS256-signed JWT, email 2FA/OTP, bcrypt, rate limiting.
- Config driven allows it to be deployed on production in under an hour.

ft_taskmaster *Go, syscalls UNIX 2025*

- systemd/supervisord-style process supervisor, signal handling and process restarts in Go.

ft_ping *C, raw sockets 2025*

- Reimplementation of ping using raw sockets and ICMP in C.

ft_transcendance *Django, Docker, Postgres 2025*

- Team project: online Pong service with a custom game engine, user management, friends system, and match history.

Astralumen *Python, procesamiento de señales HackSat-2025 (2nd place)*

- Space debris detection via specular flash analysis, 48h hackathon.

Webserv *C++, HTTP, CGI, HTML 2024*

- Built a web server serving resources over HTTP, focused on resilience under adverse conditions and heavy traffic.

EDUCATION

42 Madrid *(3rd ranked innovation university) Software Engineering Sept 2022 - Apr 2025*

- Peer-based training, advancing by shipping real projects.
- 1 month trial required, only 1 in 30 finish the program.

ESCP Business School *(Top 5 European business school) Sept 2024 - Dec 2024*

- Scholarship recipient, Option-E program, funded by Fundación Telefónica.
- Won an internal 4-month competition, taking a project from idea to seed stage.

Santander X Explorer *Jan 2022 - Apr 2022*

- Program for young entrepreneurs to develop early-stage ideas.

Computer Engineering, UNED *Sep 2021 - May 2022*

- Sought stronger technical grounding, Left after discovering 42 Madrid more practical training and better opportunities.

Business Administration, Universidad de Sevilla *Sep 2020 - Jun 2021*

- Completed the first year, but left to pursue a more technically demanding training, leading to UNED.

CERTIFICATIONS

Blue Team Junior Analyst *Jul 2026*

- Pursued to add a security layer to my development practice.

IBM Quantum Computing *Apr 2023 - Jun 2023*

- Selected by 42 for a program on IBM quantum computers, working on in-development libraries/models, giving feedback, and completing the challenge by running the teleportation algorithm on a 16-qubit quantum computer.

Additional

- Other certificates and awards.

LANGUAGES

Spanish (native), English (professional, B2)

ABOUT ME

Strategy board game enthusiast.

Looking for a volleyball and/or futsal team.

Building videogames with friends in my free time.
